

An Illustrated Timeline of  
**TRANSPORTATION**

# **ALL ABOARD**

---

You can't understand  
a city without using  
its public  
transportation system.

## Backseat Driver

Someone who likes to give advice to the driver of a car

## All Roads Lead to Rome

There is more than one effective way to do something

What are some basic rules of the road you need to know when taking a road test to obtain a driver's license in your country?

Think about topics such as parking, speeding, passing, yielding the right of way, and obeying traffic signs and signals.

## I. Describe a transport problem in your town or city.

You should say:

- what the problem is
- what the causes are
- how it affects you
- explain how you think it might be solved.

## II. Private cars.

- Do you think everyone has the right to have their own private transport?
- What do you think the effects would be if everybody had their own car?
- What measures, if any, should the government take to restrict the use of private cars?

## III. Transport systems.

- How have transport systems changed in the last 50 years?
- Have these been positive or negative developments?
- What kind of transport systems do you think might be developed in the future?

## IV. Transport problems.

- How have methods of transport changed?
- Are there any problems that have been created by new transport systems?
- How can these problems be solved?

## V. Describe your journey to school or work.

You should say:

- what forms of transport are involved
- how long it takes
- whether it is enjoyable or not
- explain how you would make your journey more pleasant if you could.
