- b) with some birthday money
- c) to any concerts for ages
- d) used to sing to me
- e) started going to concerts

Hi! My name is Andrew Dotson. I'm twenty now. I love music. My earliest memory of music is the song my mother (1) **d) used to sing to me** when I was about three or four. I used to have music lessons at school too. My mother wanted me to take up the piano, but I didn't like it at all because I loved to play the guitar. When I was ten I bought my first record (2) **b) with some birthday money**. I think it was the record by Beatles.

As I grew older, my musical taste changed. When I was a teenager, we (3) **a) used to go to clubs and pop concerts** to groups playing live, mostly rock and pop and that sort of thing. At that time I didn't like classical music at all; later when I went to university, I really got into classical music and (4) **e) started going to concerts** I was particular keen on opera.

Nowadays, I listen to all sorts of music, but I'm not too keen on loud rock music. On the whole I prefer classical music and opera, but I still listen to pop music in my car and play the guitar sometimes. I haven't been (5) **c) to any concerts for ages**, but I've always got a CD on at home. Music is an important part in my life.
